

## **Candel Therapeutics Announces Pricing of Public Offering**

Feb 19, 2026

NEEDHAM, Mass., Feb. 19, 2026 (GLOBE NEWSWIRE) -- Candel Therapeutics, Inc. (Candel or the Company) (Nasdaq: CADL), a clinical-stage biopharmaceutical company focused on developing multimodal biological immunotherapies to help patients fight cancer, today announced the pricing of an underwritten public offering of 18,348,624 shares of its common stock at a price to the public of \$5.45 per share. The gross proceeds to Candel from the offering are expected to be \$100 million, before deducting underwriting discounts and commissions and other offering expenses. The offering is expected to close on or about February 23, 2026, subject to customary closing conditions. In addition, Candel has granted the underwriters a 30-day option to purchase up to 2,752,293 additional shares of its common stock at the public offering price, less the underwriting discount.

Candel intends to use the net proceeds from the offering to complete critical launch readiness, medical affairs, pre-commercialization, and commercial activities for aglatimagene besadenovec (CAN-2409 or aglatimagene) in early, localized prostate cancer, ongoing development costs related to the phase 3 trial of aglatimagene in non-small cell lung cancer (NSCLC), and for general corporate purposes.

Citigroup, Cantor, and Stifel are acting as joint bookrunning managers for the offering. LifeSci Capital is acting as lead manager for the offering. H.C. Wainwright & Co. and Brookline Capital Markets, a division of Arcadia Securities, LLC, are acting as co-managers for the offering.

A shelf registration statement on Form S-3 relating to the shares of common stock offered in the public offering described above was filed with the Securities and Exchange Commission (the SEC) on August 14, 2025 and declared effective by the SEC on August 22, 2025. The offering is being made only by means of a written prospectus and prospectus supplement that form a part of the registration statement. A preliminary prospectus supplement and accompanying prospectus relating to the offering has been filed with the SEC and is available on the SEC's website at [www.sec.gov](http://www.sec.gov). A final prospectus supplement and accompanying prospectus will be filed with the SEC. ### **About Candel Therapeutics**

Candel is a clinical-stage biopharmaceutical company focused on developing off-the-shelf multimodal biological immunotherapies that elicit an individualized, systemic anti-tumor immune

response to help patients fight cancer. Candel has established two clinical-stage multimodal biological immunotherapy platforms based on novel, genetically modified adenovirus and herpes simplex virus (HSV) gene constructs, respectively. Aglatimagene is the lead product candidate from the adenovirus platform. The Company recently completed successful phase 2a clinical trials of aglatimagene in NSCLC and pancreatic ductal adenocarcinoma (PDAC), and a pivotal, placebo-controlled, phase 3 clinical trial of aglatimagene in localized prostate cancer, conducted under a Special Protocol Assessment agreed with the U.S. Food and Drug Administration (FDA). The FDA also granted Fast Track Designation and Regenerative Medicine Advanced Therapy Designation to aglatimagene for the treatment of newly diagnosed, localized prostate cancer in patients with intermediate- to high-risk disease, Fast Track Designation in NSCLC, and both Fast Track Designation and Orphan Drug Designation for the treatment of PDAC.

Linoserpaturev is the lead product candidate from the HSV platform and is currently in an ongoing phase 1b clinical trial in recurrent high-grade glioma. Finally, Candel's enLIGHTEN™ Discovery Platform is a systematic, iterative HSV-based discovery platform leveraging human biology and advanced analytics to create new viral immunotherapies for solid tumors.
